19-10-2006

Dear Sir/ Madam

I have forward you my provisional patent application on my filing date 2005-08-19
Submitted through Legalzoom.com.
Electronic application number 60/595952.

Please could you contact me on how to file a full patent application, as I don't want
my provisional patent to expire.
Do I need to keep the priority date, as I may have over looked this?

Thank you

Jacqueline A French

Subject : LegalZoom: Order #: 1331361

Dear Jacqueline,

Your provisional patent application has been filed with the U.S. Patent and Trademark Office. You should expect to receive via U.S. mail our confirmation showing your application number and filing date/time shortly, followed by another confirmation directly from the PTO in 8 - 12 weeks. You may now begin using the "Patent Pending" or "Patent Applied For" status on your invention while you market, sell, finance and/or conduct any other sort of activities necessary in regard to your creation.

Please make note of the 12 month timeframe (measured from your filing date), during which you MUST file a nonprovisional (full) patent application, should you choose to move forward and apply for a patent to be issued on this invention. This application can either be filed by you (and any other inventors) or by a registered patent agent or patent attorney. A list of these professionals can be found on the USPTO website.

For more information on the patenting process, please visit the PTO website at <http://www.uspto.gov/main/patents.htm>. All correspondence regarding your provisional patent application going forward should be directed to the USPTO at 1-800-786-9199 (you will need to reference the application number that we will be sending you).

Thank you for using LegalZoom, America's #1 online legal document service.

Sincerely,

The LegalZoom Team

RE: *Provisional Patent Application*
LegalZoom Order # 1331361

Dear jacqueline french:

Thank you for choosing LegalZoom!

We have prepared your Provisional Patent Application in accordance with your instructions, and filed it with the United States Patent and Trademark Office. Your filing date and time are 2005-08-19 14:42:22 EDT. Your application number is 60/595952 and is your proof of submission. Please keep it in a safe place. Enclosed with this letter is a printout of the electronic application that was filed.

Also included is a sample Non-Disclosure and Confidentiality Agreement you can use to protect your invention whenever it's exposed to a third party such as a potential investor or manufacturer. The agreement requires those who sign it to take reasonable steps to safeguard the confidentiality of the information you share with them (note however that it is not a license). If you choose to use this agreement, please read it carefully to make sure you agree with all of its provisions and that it does not conflict with any other contracts you have or plan to have in place.

The Patent Office should contact you in approximately 6-12 weeks to confirm that your provisional patent application was received and filed. If you do not receive a response within this time period, please contact the Patent Office at 1-800-786-9199, using the application number provided above as your reference.

Please note that in order to claim the priority date of your provisional patent filing, you have exactly 12 months to file a non-

provisional patent application. If you do not file a full patent application within this time, your provisional patent will expire.

Thank you again for choosing LegalZoom. We look forward to serving your legal document needs. If you have any questions concerning your filing, please contact us at customersupport@legalzoom.com.

Sincerely,

The LegalZoom Team
